## MARVELOUS VICTORY OVER DISEASE

### Psychopathic Doctors Aston- ish the Multitude

Their public healing in T. A. B. hall the last two weeks proved and convinced thousands that all manners of diseases can be controlled without drugs or the surgeon's knife.

The Demonstration Certainly Surpassed Anything Ever Attempted Before the Public Eye.

Their Private Offices at Martin House, 16 Broadway, Norwich, Will Be Open for Some Time—Consultations Free from 9 A. M. to 8 P. M. Daily Until Nov. 15.

Many thousands who witnessed these marvelous demonstrations were convinced by what they saw that the results obtained by this wonderful system of healing diseases without the use of dangerous poisonous medicines were truly astonishing.

Never before in the history of medical practice has anyone been able to arouse more enthusiasm in a skeptical public until the last two weeks in T. A. B. hall at Dr. Blumer's demonstration.

Those who witnessed and received treatment were thoroughly convinced that the benefit derived by most every individual fortunate enough to receive treatment was most remarkable and was nothing less than miraculous. Every case treated and the results obtained were truly astonishing.

As a result of this convincing proof of real efficacy of naturopathic treatment great numbers are flocking to the Psychopathic Doctors' office in the Martin House, 16 Broadway, where they have more time to enter into details of difficult cases.

Here every case is carefully examined, and if a cure is possible you are as sure of it as you are of the sun rising. If, however, you are beyond relief, no amount of money would induce these doctors to accept your case. This fact remains undisputed: The gift of healing is a power which but few men possess, and, like the gift of oratory and music, it must remain in the possession of but a few.

The following most remarkable cases were treated in the hall:

A lady who had been suffering from indigestion for some time was helped onto the platform.

In less than five minutes she was relieved of all pain and left rejoicing.

Another lady suffering from a spinal disease was assisted to the platform. In a few minutes she was so relieved that she fairly cried with joy.

A man reduced to a state of complete helplessness from paralysis was then given a few minutes' treatment and surprised the audience by walking off the platform unaided.

A man 75 years old had all the stiffness of age, as well as all his rheumatic pains, relieved in a few minutes' time.

A gentleman who had been deaf for ten years had his hearing restored in five minutes.

A man who suffered four years from neuralgia was relieved of all pain in a moment of time.

A young lady relieved from a severe headache about 30 feet away from the stage and the young lady standing near her seat in the audience was in five minutes relieved of the greatest astonishment of all and discovered all her pain gone.

A gentleman who had been deaf for eight years had his hearing restored in 10 minutes.

A lady who suffered four years from neuralgia was relieved of all pain in a moment of time.

A gentleman who was a sufferer of rheumatism, who was unable to walk without a cane, walk across the stage without a cane, and take a step without his cane, was after a five-minute treatment able not only to discard his cane, but to walk across the platform and around the hall without the cane to the greatest astonishment of the public.

A young boy who was unable to stand or walk for about five years not only was made to stand, but began running around the platform and around the hall with such rapidity that it excited the audience.

Now is your opportunity of testing to your entire satisfaction the most thorough and successful system of healing disease without dangerous medicines known to the world. It matters not what your disease is or your condition.

They have proved before the eyes of thousands that there is scarcely a disease that cannot be permanently cured. A great ray of hope has penetrated the hearts of the afflicted who learned that the Psychopathic Doctors can cure diseases such as catarrh, pulmonary complaints, liver and kidney troubles, paralysis and all diseases of the nervous system, tumors and growths removed without the knife, or the loss of a drop of blood, all stomach disturbances, spinal and cerebral disorders, female weaknesses of all descriptions, rheumatism in all its forms, such as rheumatic gout, inflammatory rheumatism, swelling and inflammation of the joints, deafness and all diseases of the ear and eye. No matter what the trouble may be, there is hope so long as the Psychopathic Specialists are in Norwich.

While their free healing in the hall has been discontinued, hundreds of people come from far and near to be treated at their private office in the Martin House, 16 Broadway. Their book, "The Revolution in Medical Practice," by Dr. Blumer, on sale at G. A. Davis Book store, 25 Broadway, at the regular price: cloth 50 cents, paper over 35 cents.

## Navigating the Air.

A steamship runs aground and an airship runs a race, but the net result is much the same—New York World.

The aeroplane wrecks are getting almost as common as train wrecks and they do not seem to be so dangerous.

The fact that Curtiss dropped oranges on yachts from an aeroplane seems to presage the time when these machines will be able to hand high explosive lemons to battleships—Philadelphia Inquirer.

Before you begin to criticize aviation meets for not panning out as per promises please kindly remember how many races for the America's cup have been boring and inconclusive drifting matches. Both aviation and yachting depend on the wind, and the wind is mighty unartin.—Chicago Post.

Smell and Taste.

The sense of smell is most nearly allied to that of taste. Hearing and seeing depend upon nerve responses to vibrations in the air and in the ether. In order to taste a substance it has to be wholly or partially dissolved; in order to smell a substance it must encounter the olfactory organs as a vapor, an emanation, a cloud of particles arising from odoriferous matter.

## LIVES EMBITTERED BY SKIN TROUBLES

Many estimable lives have been embittered by skin afflictions, due, in most cases, to neglect in infancy and childhood. Delicate skins readily become irritated and severe eruptions develop. Then treatment after treatment is tried and found wanting until life becomes a nightmare of torture and disfigurement, imposing a fearful handicap in the race for business or social advancement. Yet this physical and mental suffering might have been avoided or mitigated by a timely use of Cuticura soap and ointment.
